# Private Practice Registered Dietitians in Georgia

Children's Healthcare of Atlanta Strong4Life is collaborating with registered dietitians (RDs) across Georgia to improve access to nutrition services for pediatric patients with overweight and obesity.

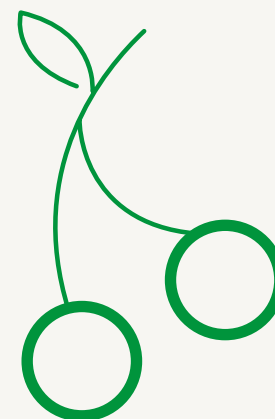

This list is provided as a community resource for convenience and informational purposes only, and does not indicate any endorsements or recommendations of the practices or services by Children's. Children's makes no claims that this list is comprehensive or up to date, so please be sure to confirm the insurance, payment plan and availability (including telemedicine vs. in-person sessions) with the individual practices.

If you are (or know of) a private practice RD who is accepting pediatric patients and would like to be on this list, email [Strong4LifeProvider@choa.org](mailto:Strong4LifeProvider@choa.org).

*Click the contents below to view lists of registered dietitians accepting referrals.*
